

alarm systems & CCTV

Titanium Security Australia's Licensed Technicians are experienced in all facets of electronic security installation, maintenance and repairs. The company's Alarm Technicians endeavour to eliminate the confusion that can arise from the technicality of the different types of electronic security systems available by working directly with clients to determine their specific security requirements and tailor an electronic security solution that is affordable and effective.

The company's Alarm Technicians have been responsible for some of the most extensive security systems work undertaken in South Australia at some of the state's high profile sites, placing them at the forefront of the industry. This industry leading knowledge of the world's latest and best security technology is one of the key factors that sets Titanium Security Australia's Electronics Division apart from industry competitors.

"We provide ongoing technical support as part of our service."
