

cash transit

Titanium Security Australia's experienced Cash Transit Officers assist clients with their cash movement by delivering the money to the bank on their behalf. All Cash Transit Officers have been completely background checked and all cash movements are logged, recorded and signed by the clients and the bank when delivered. All cash movements are fully insured from the moment the cash is received by the Officer, until it is formally accepted by the bank.

Titanium Security Australia conducts cash transit 24 hours a day. Both armed and unarmed personnel are available to carry out cash transit services. Titanium Security Australia's Cash Transit Division offers the following services:

Cash Transit

A Cash Transit Officer attends a client's site to collect cash and transports it securely to the bank on the client's behalf.

Cash Counting

A Cash Transit Officer attends a client's site to collect cash and transports it to our cash counting facility. The cash is then counted safely and securely and the client is advised of the sum counted. The cash is then transported to the bank on the client's behalf.

Change Orders

A Cash Transit Officer collects a change order from a client's bank on their behalf and delivers the change to the client for use in floats, tills etc.

ATM Technician Protection

A Cash Transit Officer escorts an ATM Technician whilst the Technician carries out ATM installation, servicing and repairs.

Why choose our cash transit services?

- Fully insured and documented
- Affordable pricing
- Armed or unarmed
- Covert or overt
- 24-hour operation
- ISO 9001 quality assured

“

Titanium Security Australia's cash transit services have proven invaluable to many commercial clients by offering complete peace of mind that their money is being taken care of by security professionals, eliminating the risk associated with staff carrying sums of money to the bank.

”

cash transit

“ Your money is fully insured from the moment we receive the funds until deposited in the bank when collected by our Cash Transit Division. ”

By entrusting Titanium Security Australia to take care of your cash transit and banking requirements, you can eliminate the risks to your staff by allowing us to bank your takings and organise your change orders.
