

security guards

Titanium Security Australia employs a team of dedicated security guards all of whom are licensed and extensively trained in all aspects of legal, regulatory and procedural security operations. The company's security guards pride themselves on not only their operational capabilities, but also on their ability to present themselves in a courteous and professional manner at all times, regardless of the situation.

Titanium Security Australia understand that clients require security guards for very important reasons and therefore, it is vital that they provide only the most exceptional security personnel to carry out security duties for clients. The company's dedicated Security Guard Division has experience in many different aspects of guarding across many different types of organisations and locations.

Security Guards can be an invaluable addition to many different types of businesses. From a corporate security guard to man the reception desk of an office premises - to a retail security guard specialising in loss prevention, Titanium Security Australia has experienced security guards available 24 / 7. The company understands that security guards are required for a variety of different reasons and roles and works directly with their clients to ascertain specific operational requirements before assigning a suitably trained and experienced security personnel.
